
JavaScript Validation

1. Login (user)

Login.js

```
// Client-side login validation for user side
(function(){
  const form = document.getElementById('loginForm');
  if(!form) return;
  const feedback = document.getElementById('loginFeedback');
  const TEST_USER = { username: 'JD@gmail.com', password: 'JD@mu033' };

  form.addEventListener('submit', function(e){
    e.preventDefault();
    if(feedback) feedback.textContent = '';
    const u = document.getElementById('usernameInput').value.trim();
    const p = document.getElementById('passwordInput').value;

    if(!u || !p){
      if(feedback) feedback.textContent = 'Please enter username and password.';
      return;
    }

    if(u === TEST_USER.username && p === TEST_USER.password){
      window.location.href = '../index.html';
    } else {
      if(feedback) feedback.textContent = 'Incorrect username or password.';
    }
  });
})();
```

2. Register (User)

Register.js

```
// Registration form validation (password strength and required fields)
(function(){
  const form = document.getElementById('registerForm');
  if(!form) return;
  const feedback = document.getElementById('registerFeedback');

  function validatePassword(pw){
    // At least 8 chars, one uppercase, one lowercase, one digit, one special char
    const re = /^(?=.*[a-z])(?=.*[A-Z])(?=.*\d)(?=.*[^\A-Za-z0-9]).{8,}$/;
    return re.test(pw);
  }

  form.addEventListener('submit', function(e){
    e.preventDefault();
    if(feedback) feedback.textContent = '';
    const owner = document.getElementById('ownerNameInput').value.trim();
    const wing = document.getElementById('wingInput').value.trim();
    const floor = document.getElementById('floorInput').value.trim();
    const block = document.getElementById('blockInput').value.trim();
    const phone = document.getElementById('phoneInput').value.trim();
    const email = document.getElementById('emailInput').value.trim();
    const pw = document.getElementById('createPasswordInput').value;
    const pw2 = document.getElementById('confirmPasswordInput').value;

    if(!owner || !wing || !floor || !block){
      if(feedback) feedback.textContent = 'Please fill Owner Name, Wing, Floor and Block.';
      return;
    }
    if(!/^[0-9]{10}$/.test(phone)){
      if(feedback) feedback.textContent = 'Please enter a valid 10-digit phone number.';
      return;
    }
    if(!email || !/^[^\s@]+@[^\s@]+\.[^\s@]+$/.test(email)){
      if(feedback) feedback.textContent = 'Please enter a valid email address.';
      return;
    }
    if(pw !== pw2){
      if(feedback) feedback.textContent = 'Passwords do not match.';
    }
  });
});
```

```

    return;
}
if(!validatePassword(pw)){
    if(feedback) feedback.innerHTML = 'Password must be at least 8 characters and include
uppercase, lowercase, number and a special character.';
    return;
}

    alert('Request submitted locally (no backend). You can now login with the provided
credentials.');
```

window.location.href = 'login.html';
 });
}
});

3. Direct to committee (user)

dtc.js

```

// Submit handler: redirect to index.html with toast message
(function(){
    var form = document.getElementById('dtcForm');
    if(!form) return;
    var queryEl = document.getElementById('queryText');

    function showError(el, id, message){
        if(!el){ alert(message); return; }
        el.classList.add('is-invalid');
        var err = document.getElementById(id);
        if(!err){
            err = document.createElement('div');
            err.id = id;
            err.className = 'invalid-feedback d-block';
            el.parentNode && el.parentNode.appendChild(err);
        }
        err.textContent = message;
    }

    function clearError(el, id){
        if(!el) return;
        el.classList.remove('is-invalid');

Screenshots

User

The screenshot shows the 'Wing Mate' login interface. At the top is the 'Wing Mate' logo. Below it is the title 'Login'. The form contains two input fields: 'Username' with the placeholder 'Enter Username' and 'Password' with the placeholder 'Enter Password'. A link for 'Forgot Password?' is located to the right of the password field. A teal 'Login' button is positioned below the fields. A red error message, 'Please enter username and password.', is displayed below the button. At the bottom, there is a link 'Don't have Account? Register'.

The screenshot shows the 'Request Account Access' form. At the top is the 'Wing Mate' logo. Below it is the title 'Request Account Access'. The form includes several input fields: 'Owner Name' (with 'Unity Moon' entered), 'Wing' (with 'Id aut est volu' entered), 'Floor' (with 'Qui sunt eos c' entered), 'Block' (with 'Nisi eum omni' entered), 'Phone Number' (with '789654123658' entered), 'Email' (with 'Enter Email ID' entered), 'Create Password' (with 'Enter Password' entered), and 'Confirm Password' (with 'Re-Enter Password' entered). A teal 'Request Account Access' button is at the bottom. A red error message, 'Please enter a valid 10-digit phone number.', is shown below the button. At the very bottom, there is a link 'Already have an account?'.
